

AI Action Recommender: Daily Briefing

Empowering Sales Managers to focus on the right actions, at the right time, with intelligent AI-driven insights.

Addressing the Core Business Challenge

Sales Managers have to handle a large number of customers, accounts, interactions, etc. daily.

The critical challenge lies in the absence of a clear, prioritised view of actions that truly matter for **today's** success.

POC Objective: Action Recommender

Analyze Customer Context & Risk

Leverage AI to deeply understand data for customers, accounts, campaigns, interactions, risks, etc.

Generate High-Impact Actions

Deliver a concise set of impactful actions tailored to current needs.

Prioritize for Daily Execution

Optimize daily workflows by clearly ranking actions based on urgency and potential.

Explain Action Rationales

Provide transparent explanations for each recommendation, fostering trust and understanding.

Daily Briefing Dashboard: The Morning Brief

A focused start to the day, designed to save time and improve focus:

- **Top 10 Prioritised Actions:** A concise list of the most critical tasks.
- **Comprehensive Action Details:** Each recommendation includes:
 - Clear Recommended Action
 - Description (customer, account, etc.)
 - Win probability, margin, churn
 - Expected Outcome
 - Priority Ranking
 - Short explanation of why this action matters today

Daily Briefing Dashboard: The Evening Brief

End-of-day visibility to support accountability and continuous improvement:

- **Completed Actions:** Review of tasks accomplished throughout the day.
- **Missed or Postponed Actions:** Insight into pending items and reasons for delay.
- **Simple Performance Summary:** A quick overview of daily achievements.
- **Sales Manager Feedback:** An integrated mechanism to gather valuable user feedback for AI model refinement.

How It Works: A High-Level Overview

Customer Context

In-depth analysis of relevant data about customers, accounts, products, invoices, open orders, campaigns, etc.

Human Feedback Loop

Sales Managers' input refines the AI for continuous improvement.

Daily Action Recommendations

Personalised, actionable suggestions delivered each morning.

Interaction History

Review of all past engagements and communications.

Opportunities & Risk Indicators

Identification of potential issues or opportunities based on various signals.

AI Prioritisation Logic

Intelligent algorithms rank actions based on impact, importance, urgency, etc.

Why This POC Matters: Strategic Impact

Focus on High-Impact Customers

Ensures Sales Managers allocate effort to accounts with the greatest potential.

Improve Consistency of Sales Actions

Promotes a unified approach across the sales team, enhancing overall effectiveness.

Reduce Decision Fatigue

AI provides clear guidance, freeing managers from constant prioritisation dilemmas.

Build Trust Through Explainable AI

Understanding the 'why' behind recommendations fosters confidence in the AI's capabilities.

What Comes Next

Following a successful POC, the AI Action Recommender can evolve into a comprehensive sales enablement tool. These are the remaining features:

Notifications

Real-time push alerts.

Conversational Interface

Allows Sales Manager to inquire about the suggested actions, customers, opportunities, product usage , revenue forecast, churn etc.

Deal Simulator

Model different scenarios for products, terms, and discounts in real-time.

Proposal Builder

Auto-generate personalized proposals.

Coaching & Performance Insights

AI-driven feedback and development opportunities for individuals and team members.
